

WE MAKE IT WORK

SPECIALIST IT SUPPORT FOR SCHOOLS

Having supported many schools for several years, we fully understand the importance of IT in an educational setting.

Fully qualified, DBS checked Technicians with over 15 years experience working in Schools

Contracts & SLA's to suit your needs

AT **ACADEME IT**, WE BELIEVE IN THE TRANSFORMATIVE POWER OF TECHNOLOGY INFUSED WITH EMPATHY

Providing a quality service is at the heart of everything we do, so we always put your needs first. We will take care of all your ICT, so that your teachers can get on with teaching and your children can focus on learning.

01

EMPATHY

We listen, understand, and empathize. Your challenges become ours, and your victories are our celebrations

02

INNOVATION

We thrive on curiosity and creativity. Our team constantly explores new horizons to bring you fresh solutions

03

INTEGRITY

Trust is our foundation. We uphold the highest ethical standards in every interaction.

04

COLLABORATION

We believe in synergy. Let's co-create, learn, and grow together

WE'RE HERE TO PROVIDE THE BEST VALUE IT SERVICES TO OUR CLIENTS.

AcademeIT are IT service providers to schools throughout the UK. Based in the midlands AcademeIT specialise in providing our clients with flexible IT solutions both locally and nationally.

Our experienced and dedicated team is on hand to determine your exact requirements, ensuring your support package is tailored to meet the needs of your school.

OVER 15 YEARS INDUSTRY EXPERIENCE

We offer a full range of IT services ranging from on-site support and our service desk to our hardware repairs and IT procurement and IT inventory management for school across the UK.

Our team are fully qualified, DBS checked technicians with our 15 years experience working

Securus

Safeguard Monitor Protect

Securus Safeguarding

DfE guidance requires schools to actively monitor and protect students online. Securus provides real-time safeguarding monitoring across school devices, identifying risks such as bullying, self-harm indicators and unsafe online behaviour. Designated Safeguarding Leads receive instant alerts, enabling early intervention and ensuring compliance with Keeping Children Safe in Education (KCSIE) requirements.

ADDITIONAL SERVICES PROVIDED BY ACADEME IT

Sophos Endpoint Protection

DfE cyber security guidance emphasises the importance of endpoint protection across all school devices. Sophos provides advanced antivirus and anti-ransomware protection, defending laptops, desktops and servers from modern cyber threats. Centralised management ensures devices remain secure, updated and compliant with school cyber security standards.

Microsoft Office 365 for Education

Microsoft 365 provides secure email, collaboration and learning tools aligned with DfE digital strategy recommendations. Staff and students benefit from cloud-based access to Outlook, Teams, Word, Excel and OneDrive, supporting remote learning, secure communication and efficient school operations, all within a protected and compliant environment.

SurfProtect Web Filtering

Schools are required by DfE and Ofsted to implement effective web filtering to safeguard students. SurfProtect provides intelligent, real-time filtering that blocks harmful or inappropriate websites while allowing access to essential educational resources. Fully compliant with UK safeguarding standards, SurfProtect ensures a safe and productive online learning environment.

Redstor Cloud Backup & Disaster Recovery

DfE cyber security standards require schools to maintain secure, resilient backups. Redstor provides fully automated, encrypted cloud backups for servers, staff laptops and Microsoft 365 data. In the event of ransomware, hardware failure or accidental deletion, your school can quickly restore critical systems, ensuring continuity of learning and protection of sensitive pupil data.

EXA Education Broadband & Filtering

DfE recommends secure, monitored internet access with appropriate filtering and monitoring. EXA delivers education-grade broadband designed specifically for schools, with built-in safeguarding filters and compliance-ready reporting. Fast, reliable connectivity supports modern digital learning while ensuring pupils are protected from inappropriate online content.

SAMS – School Asset Management System

DfE guidance recommends maintaining a complete and accurate IT asset register. SAMS provides a simple, secure system to track all school devices, including laptops, iPads and classroom equipment. Schools gain full visibility of asset location, condition, warranty and lifecycle, improving accountability, budgeting and compliance.

TESTIMONIALS

References available upon request

**Bellfield Infant School, Birmingham
Office / Business Manager**

"Academe IT transformed how we manage our school technology. Their structured asset management system gives us complete visibility of our devices, helping us meet safeguarding and DfE compliance requirements. Their team is proactive, responsive and genuinely understands the needs of schools."

**Marsh Hill Primary School, Birmingham
School Business Manager**

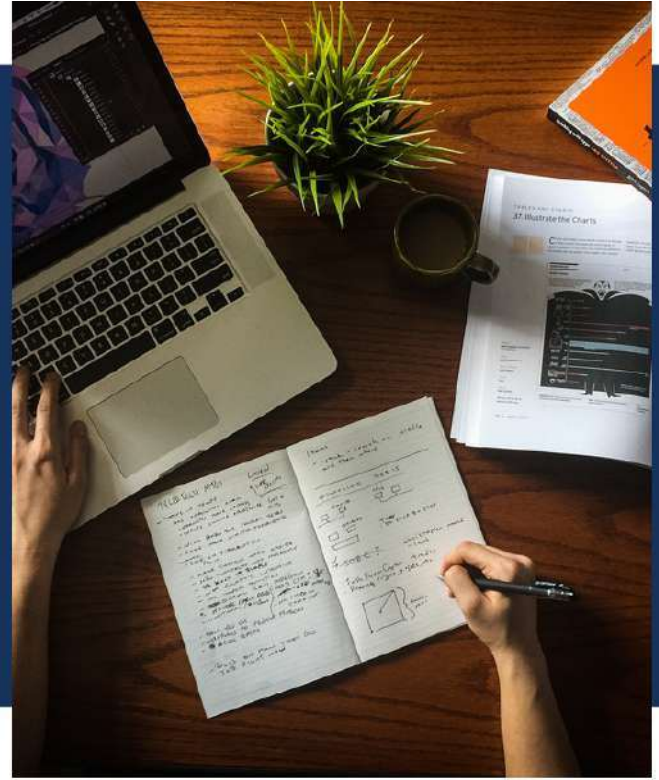

"The support from Academe IT has been excellent. Issues are resolved quickly, and their preventative approach means problems are often fixed before they affect staff or pupils. Their professionalism and understanding of the education sector make them a trusted partner for our school."
